About Surna

Headquartered in Boulder, Colorado, Surna Inc. (OTCQB: SRNA) develops and markets novel energy and resource-efficient solutions, including the company's signature water-cooled climate control platform, which meet the highly specific demands of the cannabis industry for temperature, humidity, light and process control. Surna's solutions aim to improve the efficiency, reliability, and overall yield of controlled environment agriculture. Though many of its clients do, Surna neither produces nor sells cannabis. Safe Harbor Statement

This news release contains statements that involve expectations, plans or intentions (such as those relating to future business or financial results, new features or services, or management strategies) and other factors discussed from time to time in the Company's Securities and Exchange Commission filings. These statements are forward-looking and are subject to risks and uncertainties, so actual results may vary materially. You can identify these forward-looking statements by words such as "may," "should," "expect," "anticipate," "believe," "estimate," "intend," "plan" and other similar expressions. Our actual results, such as the Company's ability to finance, complete and consolidate acquisition of IP, assets and operating companies, could differ materially from those anticipated in these forward-looking statements as a result of certain factors not within the control of the company such as a result of various factors, including future economic,

competitive, regulatory, and market conditions. The company cautions readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. The company disclaims any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

Statement About Cannabis Markets

The use, possession, cultivation, and distribution of cannabis is prohibited by federal law. This includes medical and recreational cannabis. Although certain states have legalized medical and recreational cannabis, companies and individuals involved in the sector are still at risk of being prosecuted by federal authorities. Further, the landscape in the cannabis industry changes rapidly. What was the law last week is not the law today and what is the law today may not be the law next week. This means that at any time the city, county, or state where cannabis is permitted can change the current laws and/or the federal government can supersede those laws and take prosecutorial action. Given the uncertain legal nature of the cannabis industry, it is imperative that investors understand that the cannabis industry is a high-risk investment. A change in the current laws or enforcement policy can negatively affect the status and operation of our business, require additional fees, stricter operational guidelines and unanticipated shut-downs.
